Not Many Store-Sales Are Uninfluenced by Store-Advertising!

The store-sales to-day that are uninfluenced, directly or indirectly, by store-advertising will not have amounted to ten per cent. of the total business of the day. By the direct influence of advertising is meant the sales of articles specifically advertised. By the indirect influence of advertising is meant the articles sold that are not specifically advertised, but are displayed to the customers who are drawn to the store BY THE ADVERTISED ARTICLES. In the latter case, as surely as in the first, the advertising must be credited with the sale.

Observant merchants know that this is true. They should gain courage from the knowledge to strengthen their advertising campaigns to the point of matching their store-hopes and plans.

Want Ads Cent a Word.

DRUGLESS CURES

The Phenomenal Success

ASTONISHING RESULTS OBTAINED

A Natural Scientific Treatment that Creates a Sensation

The Psychopathic Doctors, of Hartford, Give Bridgeport People One More Week to Enroll in Order to Receive Treatment in This City.

Any one who can come before a skeptical public and prove such marvelous results as the Psychopathic Doctors have proved in the different principal cities of this state, before the eyes of thousands, are certainly well worth considering.

The confidence that the people are placing in their methods has a deep meaning. Their six years of successful practice in Hartford, followed by astonishing results, brings them, from their treatment, multitudes of patients and the rush of business in their private offices in Hartford and in Bridgeport is increasing daily.

The Psychopathic Doctors, who demonstrated their scientific methods of healing about six months ago in Warner Hall, Bridgeport, aroused widespread wonder and comment in all circles.

Hundreds of so-called incurables who have been given up as hopeless by other physicians, and who have been afflicted of the worst form of disease have received their life satisfaction and now state that their treatments are of inestimable value to the afflicted.

In their private offices they have made thousands of permanent cures and they have never yet injured any one.

The crowds visiting their offices daily show conclusively that many are convinced by friends and neighbors' experiences that the Psychopathic Doctors can and do cure the worst form of disease.

Marvelous as it may seem, bordering on the miraculous as it certainly would appear, nevertheless there are men and women in this community who have to credit their complete restoration to health to the Psychopathic Doctors, who, without the use of drastic drugs or surgeon's knife have given many Bridgeport sufferers the surprise of their life.

The general public should take more interest in these methods. The wisest, best educated and most enlightened people are daily being converted to these modern innovations. The methods employed by them are today supported by the most convincing evidences, sustained by the accomplished daily of cures which no medical agency has ever approached.

Scientists must admit that it is an exact science, though wonderfully simple in its application and yet wonderful in its effects.

Some doctors will oppose their work today for fear they may injure their business. There is no use, however, in opposing it now. "Right is right, a truth today is a truth tomorrow, and forever."

The people of this country are rapidly and surely drifting away into new lines of thought and away from drug medication. A few more years will sound the death knell of drugs. Thousands are convinced that drugs do not cure.

The Psychopathic Doctors control the normal circulation of the blood by their combined treatments, aiding nature to take up and dispose of all impurities. Perfect circulation of the blood means perfect health to everyone, regardless of what the disease may be.

By these natural and rational methods there is a vital force imparted to the subject from the nerve centers which increases the flow of blood to all parts of the body in a natural way. Vitalizing and harmonizing, it regulates and builds up the blood, the nerves, the muscles and the entire organism.

It is not simply a method that can cure a certain disease and no other, but they have incorporated all natural methods and suit the treatments to every individual case and in this way they perform such cures that it is certainly astonishing. They will give free consultation and more will be given. A few more years will see the death knell of drugs. Thousands are convinced that drugs do not cure.

Be sure to read Dr. Blumer's famous little 100-page book entitled "The Revolution in Medical Practice." It has made a stir in literary circles; it is the most extraordinary work, radically different from others; it is the most important work of the age; no doubt greatest of its kind and of vital interest to every man and woman in the world; no one who values health or any kind of reading matter should fail to read this book. On sale in this city at Hayes & Betts, 993 Main street, for 35c and 50c.

Still Searching for Holland Bennett

(Special from United Press.)

Naples, June 14.—United States Consul Crownsfield today cabled to New York to have the authorities there thoroughly examine the steamer Berlin and all her steerage passengers when the vessel arrives in New York, in the hope of finding some clue to the disappearance of Rolland Bennett, the Boston man who is supposed to have disappeared from the ship somewhere between Genoa and Naples. Crownsfield is inclined to accept the theory that Young Bennett, who was on his honeymoon, committed suicide but close friends of the man and his wife deny this. After the vessel had left for New York it was reported that there was a possibility that the man had been killed and his body hidden on board.

It is expected that if he was the victim of any one on board the ship a search will reveal this fact and that is why the consul cabled for the institution of the investigation.

THE STOCK MARKET

(Watson, Alpers & Co.)

It is only reasonable to continue the opinion long expressed in our letters that all the active forces in the situation are working on the constructive side. So long as there is no setback from abroad, and no development of the tendency of values must therefore be upward. Healthy technical conditions are established by the very irregularly produced by reactions founded upon profit taking. The continued presence of a short interest is also maintained by such incidents, and considering the existence of strong foundations we look, in the absence of accident, for further expansion and bull accomplishments in the market.

POLICE HUNT

DRUG EVIL

Join Cocaine Crusaders to Demand Tariff Check.

Congress Can Shield American Homes by High Duty—Doctors Urge This Protection.

New York, June 14.—For the first time in its history the police department of this city has to-day organized and begun a special crusade to stamp out the alarming spread of the cocaine habit, which is now recognized to be one of the most serious sources of vice and crime throughout the country. Every effort is being made to enforce the new state law against the sale of excessive quantities of this drug for the uses of the "dope fiend" rather than the doctor. Fully 75 per cent. of the cocaine that passes through this city, the police admit, finds its way to the victims of the deadly drug through an underground system of traffic which draws principally from foreign sources.

With no duty upon cocaine leaves, from which illicit purveyors extract a rough form of cocaine for their drug-crazed customers, and only a low tariff imposed upon the quantities of the drug that are shipped here for secret distribution throughout the country, it is recognized that the chances for controlling the spreading cocaine curse are to-day very slim, even under the most strict state laws and police surveillance. Urging the recent recommendation of the American Health League for "a prohibitory tariff, internal revenue tax and other means which will restrict the use of cocaine, its substitutes and derivatives, to medical purposes," members of the medical profession, welfare workers, clergymen and the leading drug houses here are now looking to Congress to safeguard every community in the country by this shutting off this chief source of the illegal supply of the noxious drug. Though restrictive laws can be and are being successfully enforced by compelling the local manufacturers and wholesalers to keep records of their cocaine sales, it has been proven, unscrupulous retailers to whom the American houses refuse to sell excessive quantities and perfectly free to obtain a limitless and untraceable supply from abroad.

More cocaine is sold to drug victims from one of their supply stations in a single night than an ordinary drug store could sell for medicinal purposes in a year, the police declare. Medical men who are interesting themselves in urging Congress to give the homes of this country this high tariff protection from the ravages of the drug assert that the comparatively small supply of cocaine necessary for professional purpose will still be readily available for their uses. With a tariff of \$1.50 an ounce put upon the foreign cocaine supply and a duty of five cents on each pound of coca leaves it is proposed to decisively check the cocaine plague and place it firmly under government control by an internal revenue tax.

No power but that of the people can now induce the law makers at Washington to include in the Aldrich-Payne bill this necessary "dope law" the protection of every American family, the leaders in this movement declared today. If every philanthropist, medical and charitable organization throughout the land will recommend to its members an immediate appeal to Senator Lodge, who is presenting this matter, or to Congress representatives in Congress, it is believed these efforts to combat the curse of cocaine may succeed.

Mayor Stops Salvation Army in Stamford

Stamford, June 14.—The police broke up an open air meeting of the Salvation Army, Sunday, and brought Capt. S. W. Wilbur, his daughter, Miss Wilbur, and others, J. H. Wilbur, and Albert Wilbur, Mrs. J. H. Wilbur, and Staff Capt. Joseph Garabed, known as "Joe the Turk", to police headquarters, because they ignored the order of Mayor Tupper and Chief of Police Brennan, to cease beating a bass drum and blowing bugles on the street on Sunday.

They were closed for upward of an hour with Mayor Tupper and Chief Brennan, and at the end they were defiant. Capt. Garabed, who is conducting a series of meetings here, declared that the police interference was an outrage and added that he would hold his meeting with the music accompaniment on Atlantic Square.

Mayor Tupper gave definite orders to arrest him or any one else who used a noise or music making device at the meeting. The police are acting on a city ordinance, and Garabed says he and his fellow Salvationists are standing on their constitutional rights.

PRIEST GIVES FUND FOR FORT SLOCUM CHAPEL

New Rochelle, N. Y., June 14.—The cornerstone of a new Roman Catholic chapel, to be built at Fort Slocum, was laid yesterday afternoon in the presence of a large number of civilians and United States troops stationed at the fort. The fund for the chapel was given by the Rev. Thomas J. McLaughlin of New Rochelle.

Father McLaughlin's parishioners last week gave him a purse of \$2,500 on his silver jubilee. He said that he would use the money for the chapel at Fort Slocum. The Knights of Columbus and Holy Name Society were represented at the ceremony, and Lieut. Col. Andrews of the Second Cavalry, commandant of the fort, had charge of the military arrangements.

WEDDING PRESENTS

The June bride will much appreciate a present in either Silverware, Cut Glass or a good Clock. They are ideal gifts and will last a life time.
